

ROHIT PRADIPBHAI MADLANI
B.Tech. - Electronics & Communication Engineering
Ph: +91-8154025214
Email: 24bec511@nirmauni.ac.in
Ahmedabad, Gujarat, India - 382470

EDUCATION

Institute of technology, Nirma University B.Tech. - Electronics & Communication Engineering CGPA: 7.42 / 10	2024 - 2027
Government Polytechnic, Porbandar, Porbandar Diploma Diploma - Computer Science and Engineering GTU CGPA: 9.41 / 10	2024
Saint Mary's School, Porbandar, Porbandar 10 th GSEB Percentage: 85.17 / 100	2021

INTERNSHIPS

Einfochips Consumer Electronics / Appliances ASIC Design Engineer Key Skills: Edge AI ASIC VLSI Got hands on RTL design and ASIC workflow along with the research on Edge-AI chip.	15 May, 2026 - 30 Jun, 2026
Sparks To Ideas IT / Computers - Software Flutter Developer • Developed and Optimized UI for Spotify clone and a coffee shop app using Flutter ensuring smooth performance across devices, which enhanced UI by 37% and performance by 24% • Collaborated with designers and developers to enhance functionality & User Interface (UI) consistency	27 Jul, 2023 - 30 Aug, 2023

PROJECTS

Wireless Print Vending Machine (Self-Service Cloud Upload & Auto Printing System) Developed a Raspberry Pi-based self-service printing kiosk, enabling wireless document upload via QR/web interface & fully automated print queue management and execution using CUPS on Linux.
4-bit Microprocessor using Verilog HDL Executes a simple instruction set (LDA, STA, ADD, SUB, JMP, etc.), Features 4-bit registers (A & B), Zero and Carry flags, supports memory load/store, arithmetic, and conditional jumps, has a HALT instruction and observable outputs for debugging
Self-Direction Car Built an autonomous obstacle-avoiding car using Arduino Uno, ultrasonic sensors, and a motor driver, enabling real-time direction to change upon detecting obstacles.
Sports Club Merchandise Website Developed a Sports Club Merchandise Website using Java, Hibernate, and web technologies, enabling seamless product browsing, ordering, and inventory management with a robust database backend
E-Commerce Sales Performance Analysis using Excel & Tableau Key Skills: Excel Tableau Designed a business intelligence dashboard to evaluate sales performance across products, categories, and regions. Performed data analysis using SQL and created interactive Tableau visualizations to monitor revenue, profit, and customer metrics. Generated actionable insights to support strategic business decisions and operational improvements.
Machine Learning Car Recommendation Engine Key Skills: Machine Learning, Python Designed and implemented a car recommendation engine using machine learning algorithms to provide personalized vehicle suggestions. Processed and analyzed automotive data to improve recommendation accuracy based on user inputs. Enhanced the user experience by enabling quick and data-driven car selection.
Retail Data Pipeline Using Hadoop & Hive Key Skills: Hadoop Hive Python

Built an intermediate-level Big Data analytics pipeline using Hadoop and Hive to process large-scale retail transaction data. Loaded datasets into HDFS, performed data cleaning and transformation using HiveQL, and generated analytical insights on sales, customers, products, and regional performance.

Database-to-Cloud Data Migration Pipeline

Key Skills: Python Cloud SQL

Developed a simple data migration pipeline to transfer structured data from a relational SQL database to cloud storage. Implemented data extraction, transformation, validation, and loading, while performing consistency checks between the source and target datasets to ensure reliable migration.

AES-128 Encryption Core (Verilog | RTL to Gate-Level)

Designed and synthesized a complete AES-128 encryption core in Verilog HDL, implementing all 10 rounds (SubBytes, ShiftRows, MixColumns, AddRoundKey) and validating functionality through simulation, synthesis mapping analysis, and timing-accurate hardware-level verification..

Multi - Elevator Digital System Design – Verilog & FPGA

Designed using Verilog, enabling efficient floor selection, collision avoidance and movement control.

ASSESSMENTS / CERTIFICATIONS

Gen AI Exchange Hackathon

Provider: Google Cloud

- Semi-Finalist in Google Gen AI Exchange Hackathon, developing AI Career Mentor using Gen AI
- Built & demonstrated an end-to-end prototype with features like resume-based suggestions & curated learning resources, improving career planning efficiency by reducing manual search time ~50%.

Build & Grow AI Hackathon 2.0

Provider: GDG Cloud Mumbai

Developed an AI-powered Personalized Learning & Career Assistant using Google Gemini API (2026)

IEEE EPICS

Provider: IEEE

- Built a Smart EV Charger prototype with OCPP-enabled secure monitoring and complaint billing
- Researched critical EVSE sensors (voltage, current, residual current, temperature, ground, contactor coil, pilot signal), detailing sensor roles, & comprehensive fault detection mechanisms
- Implementing an AI-driven diagnostic framework (EVXAI-Net) to enable predictive maintenance, real-time fault detection, and intelligent performance monitoring across EV charging systems

POSITIONS OF RESPONSIBILITY

Student Placement Coordinator, Placement Committee

- Served as Student Placement Coordinator acting as the primary liaison between recruiters, placement committee of Nirma University, and students to ensure smooth execution of end-to-end campus hiring processes.
- Coordinated placement activities including company outreach, interview scheduling, data management, and student communication, improving recruiter experience and placement process efficiency.

School Leader, Saint Mary's School, Porbandar

- Elected School Leader, representing the student body and leading planning and execution of academic, cultural, and sports events, coordinating across students, teachers, and administration.
- Organized and managed large-scale school events, handling end-to-end responsibilities including logistics, budgeting, scheduling & team coordination, ensuring smooth execution & high participation.

SEMINARS / TRAININGS / WORKSHOPS

Foundation of VLSI design Verification Institute Name: MNIT Jaipur, IIITDM Jabalpur, IIT Roorkee & NIT Patna

Key Skills: VLSI design verification

PERSONAL DETAILS

Gender: Male

Marital Status: Single

Current Address: D-701, Sanidhya Royal, Tragad, Ahmedabad, Gujarat, India - 382470

Emails: 24bec511@nirmauni.ac.in , rohitmadlani2601@gmail.com

Date of Birth: 26 Jan, 2006

Known Languages: English, Gujarati, Hindi

Permanent Address: Bansi General Store, Sharda Mandir Road, Limda Chowk, Porbandar, Gujarat, India - 360575

Phone Numbers: +91-8154025214, +91-6355441266
